Nanoscale science and technologies will dominate the future.

Computer storage devices
Molecular machines
Electronics
Sustainable energy

Will shaping the Nano revolution be part of your future?

Open House on the Minor and Master’s submatriculation programs in Nanotechnology

Date: September 30, 2015
Time: 6:00-7:00pm
Location: Glandt Forum
Singh Center for Nanotechnology

Who: Penn undergraduates in science, engineering, math or business, and anyone interested in the Master’s program.

Sign-up: www.masters.nano.upenn.edu/openhouse.html
